

OSPERIA  
**VISI**

**OSPERIA.COM**

**View your transactions**

Our VISI application interfaces the Maitre'D management and billing solution and some camera recorders from HIKVISION.

We can interface up to 16 Maitre'D POS, each with a camera connected to the recorder.

Following the installation of the interface, you will be able to see the list of items that will be stamped by your employees on the crates by super printing the camera image. You will also see discounts, payment methods, etc.

From the search module of the recorder, you can view your various transactions such as gift card sales, cancellations, etc.

This will allow you to better control your operations by keeping an eye on them.

Note: The HIKVISION company recorder must have the POS interface option in order to receive the information sent by VISI.
